

Contactless Mobile Solutions

Flexible solutions for contactless convenience.

Contactless mobile point-of-sale solutions designed for a convenient, safe experience.

FLEXIBLE DESIGN

The freedom to choose any payment device, handheld, tablet or operating system to support your curbside operations.

FULLY MOBILE

Solutions that integrate charging and USB connectivity enable complete mobility and transactions that keep your teams running full speed.

CONTACTLESS FULFILLMENT

Retail, hospitality and service teams can use a single system to fulfill orders, process payment and deliver goods to customers – carside.

Flexible point of sale hardware to engage customers, increase sales and deliver contactless service beyond the traditional four walls.

NE360

The NE360 is an innovative tablet display with a flexible design that is fully mobile, provides exceptional customer interaction and increased sales. Its design gives total freedom to choose any payment device, handheld, tablet or operating system.
