

Helix Wall Dispenser

Self-service hook that dispenses merchandise with a time delay.

Helix is easy to use and more flexible and economical than bulky cabinet dispensers. An average of 6 to 8 seconds dispense time creates the proper time balance for customer self-service secured dispensing.

The Loss Prevention Research Council (LPRC) has concluded that InVue's Helix Wall Dispenser helps to reduce shrink and increase sales. The LPRC study—conducted at 10 CVS/ Pharmacy stores and 10 OfficeMax stores—showed that the Helix technology reduced shrink by as much as 82% and increased sales by 32% across four different merchandise categories.

Helix Wall Dispenser

FEATURES AND BENEFITS

- 1 Provides operational efficiency by allowing store associates to quickly load dispenser
- 2 Universal “knob” design provides simple instructions in a global communication style
- 3 Durable shroud protects the top of merchandise
- 4 Captured by the Helix wire and the protective shroud, the base cap secures the assembly to the wallboard
- 5 The gear housing is locked to the horizontal wire form with our patented magnetic locking system and can only be removed from the wallboard using our proprietary OM Key™
